

Guided Type Fall Arrester System on Flexible Anchorage Line

SKU: PN2003

Key Features

This system is an ideal fall restraint device for use while working on platforms and roofs

Rope grab is not detachable from the rope. This gives an advantage that the worker does not lose the device when the equipment is not in use

Has one side loop for connector and a stop knot on the other side

Available in lengths of 5m to 100m

Certification:

EN 353-2:2002, AS/NZS 1891.3-2020, IS 3521(Part 4):2021

Description

- KARAM provides a vast range of temporary horizontal and vertical anchorage line systems that are extremely easy to carry and install. These lifelines provide a suitable and safe anchorage to the user whenever required.
- All these systems have uniquely designed rope grabs that grab onto the anchorage line on which they move, thus arresting the fall immediately.

Warranty: 1 year from the date of invoice against any manufacturing defects.

Ideal for use

Anchorage
