Horizon Temporary Horizontal Webbing Anchorage Line

SKU: Horizon PN3000(BC)

Key Features

The horizon PN3000(BC) is a horizontal anchorage lifeline made up of 30mm Polyester webbing equipped the KARAM ratchet tensioner that allows easy tensioning of the lifeline between two structures. Both the ends are provided with auto locking steel karabiners PN113

Comes with 2 cross arm straps PN804 each to tie off to the structure where the anchorage is required

Available length- total 20m, so the user can use it for a length ranging from 5m to 20m

Tested and certified for use by two users simultaneously

Once the lifeline is fitted, the user can easily attach the lanyard of his harness to the lifeline using a karabiner. This allows movement along the length while keeping the user secured and safe at all times

Certification:

EN 795:2012 TS 16415:2013 Type B&C, IS 3521(Part 8):2021

Description

- KARAM offers the horizon range of temporary horizontal lifelines, made of textile webbing and rope, which is extremely easy to carry and install wherever required. These anchorage lifeline systems by KARAM provide a suitable and safe anchorage horizontally along the entire length.
- KARAM provides a vast range of temporary horizontal and vertical anchorage line systems that are extremely easy to carry and install. These lifelines provide a suitable and safe anchorage to the user whenever required.
- The whole system is supplied in a bag, which is permanently attached to the assembly and also enables the user to easily carry the system with the help of comfortable shoulder hanging straps provided in the bag.

Warranty: 1 year from the date of invoice against any manufacturing defects.
